LightHouse

Play games to earn, it's that simple

Lighthouse is the ultimate game platform designed around the DEFI & NFT economy.

We are the very first cross-chain IDO platform built for gamers and game developers. Curated by the Seascape Network, the Lighthouse will offer opportunities to become a part of highly promising Play-to-Earn projects developed by experienced and reliable teams from across the world.

Tiers

Tiers are how users will qualify for Lighthouse allocations. By holding CWS, trading NFTs and playing Seascape games, gamers will prove they are active members of the community and worthy of an allocation.

Additionally, each user tier claim will burn CWS, adding further use case to the Seascape ecosystem.
